

Coding with the ArtDragon

Hello, all... this is the ArtDragon. I wanted to specifically express my joy and gratitude for the evolution of technology currently. I am fortunate to have grown up in a time of technological advances that have given me access to whatever my brain could dream up as I aged through the years. Starting off with a Commodore Vic20 at the age of 8, I revel in the fact that I can surround myself with the “parlor walls” of what I thought would only be a future that I would never see.

In the vein of being an educator in the Bremerton School District in Washington state as well as being aligned with Microsoft TEALS where I teach computer science online to students in El Paso, TX and I have the luxury of coaching robotics in the Central Kitsap School District. I still personally have a thirst for knowledge that I always want to pass onto others. I am seeking to create an application in Python coding that can access specific Google Documents and parse out the information contained on the documents. The collection of data will be utilized in the CMU CS Academy IDE to make a Python script that will decode a secret message.

The PRIVACY POLICY located below is to reiterate that any data collected is to be utilized for educational purposes.

Again, I want to share my appreciation for the journey of knowledge. Having a growth mindset to constantly evolve is the way of the ArtDragon. I close in stating that I always believe that education is aligned with my personal mantra in my teaching practices – “Don’t preach, just teach...”

Privacy Policy

Last updated: December 15, 2024

Insanity-Print and Publish (the "We") operates Coding with the ArtDragon mobile application (the "App"). This privacy policy explains how we collect, use, and protect the personal information of users ("you" or "your") in connection with the App.

Information We Collect

We do not collect personal information from users of the App. The App only accesses specific Google Documents as directed by you to parse out information for your use.

Use of Information

The App solely uses the data from the specified Google Documents to perform the functions you have requested, such as parsing out information. We do not use the data for any other purposes.

Data Sharing and Disclosure

We do not share, sell, rent, or otherwise disclose any data collected from your Google Documents to any third parties. Your information remains confidential and is only accessible to you.

Data Security

We take reasonable measures to protect the data processed by the App from unauthorized access, alteration, disclosure, or destruction. However, please be aware that no security measures are perfect or impenetrable.

Changes to This Privacy Policy

We may update this privacy policy from time to time. We will notify you of any changes by posting the new privacy policy on this page and updating the "Last updated" date above.

Contact Us

If you have any questions or concerns about this privacy policy, please contact us at heartdragon1973@outlook.com or text at (843) 442-4644
